I. INTRODUCTION AND FOREWORD

TPCA Rules and Regulations For use by Members, Renters and Guests

A. Introduction

Purpose and Introduction:

This document serves to inform residents of the elements used to govern the Timber Pines Community Association, Inc. (TPCA). Timber Pines is a planned Common Interest Community for residents 55 years of age or over. Membership in the Association is mandatory and automatic. An owner owns his or her deeded lot and living unit. The TPCA owns all the common areas, including the land, roads, buildings, amenities and equipment for the use and benefit of the lot owners and their guests or tenants.

The Rules, Regulations, Policies and Guidelines in this Booklet have been prepared by a standing sub-committee of the Village Representatives Committee and approved by the Board of Directors. All persons using Timber Pines community facilities are responsible for understanding and following these documents.

Governance, Documents:

Timber Pines is designated as a Home Owners Association (HOA) under Florida Statutes. The following, in order of precedence, are relevant to governance at Timber Pines.

- 1) Florida Statute, Chapter 720, HOMEOWNERS' ASSOCIATIONS, Sections 301-315.
- 2) Florida Statute, Chapter 617, CORPORATIONS NOT FOR PROFIT.
- 3) Recorded plat located in the Hernando County Offices.
- 4) Restated and Amended Declaration of Covenants, Conditions and Restrictions.
- 5) Articles of Incorporation.
- 6) Bylaws for Timber Pines Community Association, Inc.
- 7) Timber Pines Rules and Regulations that apply to Members, Renters and Guests.

The Declaration, Articles of Incorporation and By-Laws can only be amended by a vote of the membership. The Rules & Regulations require approval of any amendment by a two-thirds vote of the Board of Directors.

Governance, Structure:

Timber Pines is governed by a seven-member Board of Directors (the Board), of which 2 or 3 (or rarely more) are elected for a three year term at the annual membership meeting in February. The Board then votes to elect the Officers; a President, Vice President, Secretary and a Treasurer. The General Manager reports to the Board through the President. All employees report to the General Manager.

The Board is supported by various standing committees. All provide advice from within their areas of interest. The successful utilization of committees by the Board of Directors will depend on many factors, including individual personalities of directors and

I. INTRODUCTION AND FOREWORD

committee members, as well as relevant skills sets and the perception of competence. While these should be considered during committee interviews and selection in an effort to maximize the effectiveness of committees, it is not possible, nor is it useful, to eliminate all conflicts.

Governance, Financial:

The TPCA Board of Directors approves an annual budget each year, for the following fiscal year; which begins on the first day of the following July. The budget addresses the following three items:

- 1) **The Operating Fund:** This fund is used to account for financial resources available for the general operations of the Association.
- 2) **The Asset Acquisition Fund:** This fund is used to accumulate financial resources designated new for capital assets.
- 3) **The Reserve Fund:** This fund is used to accumulate financial resources designated for future major repairs, maintenance, and replacements of existing assets.

Governance, Guidelines:

During Fiscal Year 2008-2009, Timber Pines conducted a survey of the membership and residents, chaired by an outside consultant. That project led to a charter for the Strategic Planning Team and included retention of a Vision Statement and development of this list of Core Values:

Timber Pines Community Association

Our Vision Is To Be:

A premier community designed for the active senior, age 55 and older and recognized for its quality of management and excellence in residents' services.

Our Core Values Are To Maintain:

- **The Community's natural beauty and environment.**
- **Current standards for our infrastructure.**
- **The safety and security of the Community's residents.**
- **A friendly atmosphere and sense of community.**
- **Honesty and integrity in everything we do.**
- **A variety of quality amenities and services.**

I. INTRODUCTION AND FOREWORD

- **Budgeting to avoid special assessments and debt.**
- **Affordability for most.**

A salient finding of the project was the overwhelming emphasis on those core values, such that we expect that all of the members will keep them in mind as we interact with each other.

B. Foreword

This *Timber Pines Community Association, Inc. Owner/Resident Handbook* was produced in October 1999 to serve as a guide to the facilities and amenities of Timber Pines as well as setting forth the rules and regulations that are necessary in any community. After the membership approved a set of amended Master Documents in February 2001 it was necessary to make changes and additions to the handbook so that the language would conform to the language of the amended Master Documents. The Rules and Regulations Committee, a standing committee of the Village Representatives, and fellow Owners, devoted considerable thought and time to the formulation of the original *Owner/Resident Handbook* as well as subsequent *Timber Pines Community Association, Inc. Rules & Regulations*.

When Owners and Renters choose to live in Timber Pines, they also accept many responsibilities related to promoting harmony and protecting property values. They accept the restrictions, rules, and regulations, even though these documents place limits on them. This is considered a small concession in exchange for the advantages gained as members of an Association of Owners. Such as:

1. Cultivating mutually respectful relationships with our neighbors;
2. Sharing in Association governance and activities; and
3. Observing the rules and regulations to preserve and safeguard our common interests.

From time to time it has been necessary to update the Rules & Regulations due to changes in administrative procedures and board policy changes. This most recent edition includes all revisions approved by the Board of Directors through November 3, 2014.

This supersedes all previous editions.

<u>Category</u>	<u>Fine</u>	<u>Loss of Privileges</u>
1	\$ 10	One (1) Week
2	\$ 25	Two (2) Weeks
3	\$ 50	Four (4) Weeks
4	\$100	Eight (8) Weeks

A Warning Letter issued by the General Manager carries no penalty, but will remain on file for a period of one (1) year from the date of issue. A repeat violation of the same or similar regulation within that period will require the issuance of a citation.

The first citation received for a violation of a regulation may carry only the fine indicated for the applicable category. A second citation received for a violation of the same or similar regulations within 365 days of the first citation will carry the fine and loss of privileges indicated for the applicable category. (A second citation received for a violation of the same or similar regulations beyond 365 days of the first citation will be considered as a “first” violation for penalty assessment purposes.)

Repeat violations of the same or similar regulations within 365 days of the second citation will result in both the previous fine and the loss of privileges’ time being doubled. Florida Statute F.S.720.305(2) limits fees up to \$100 per violation. However, there is no limit as to the length of time a Resident may lose privileges and use of facilities for repeat violations within the prescribed time periods.

D. Late Payment

If an employee experiences or witnesses unlawful harassment (including sexual) in the workplace, from whatever source, they are to report it immediately to their supervisor, Department Manager or any other member of management. They may raise concerns and make reports without fear of reprisal or retaliation, since Timber Pines prohibits any form of discipline or retaliation against employees for reporting in good faith the incidents of harassment in violation of this policy, pursuing any such claim or cooperating in the investigation of such reports.

All allegations of harassment will be quickly and discreetly investigated and to the extent possible, confidentiality will be protected against unnecessary disclosure. When the investigation is completed, all involved parties will be informed of the outcome of the investigation.

The Board of Directors will determine the proper course of action regarding sanctions. (e.g. fines, suspension, trespass.)

Harassment is serious. Individuals should be aware that sexual and other unlawful harassment may subject them to sanctions in criminal and/or civil proceedings.

K. Memorial Trees

If a Resident wishes to purchase a tree in memory of another Resident, a Memorial Contributor's Form can be completed and delivered with a personal check for the full purchase amount to the Administration Office. The tree will be a Florida Friendly Tree without a nameplate or plaque. The General Manager will endeavor to accommodate the Resident donor as to location; however, the final decision as to where the tree is planted in the common area rests with the GM.

XI. ARCHITECTURAL CONTROL

A. Introduction

The TPCA Community Associations (“TPCA”) is responsible for regulating the exterior appearance of all homes and lots to best preserve and enhance values and to maintain harmony of external design, materials and location in relation to surrounding structures, and the natural vegetation and topography within the properties.

The homeowners (or Applicant) must obtain pre-approval for all exterior modifications, additions or deletions to their homes or lots in conformity with the Master Documents. The Association’s Architectural Control Committee (ACC) is appointed by the Board of Directors (BOD) to review certain project types (listed in Section 3) and shall “Approve” or “Disapprove” requests based on, the parameters herein. The committee shall consist of no fewer than three (3), and no greater than nine (9), TPCA Members. All committee members shall have qualifications as deemed appropriate by the BOD, and shall be appointed for a length of time as desired by the BOD. The committee shall elect from its body an individual to be its chairperson. It is the responsibility of the Applicant to obtain any governmental permits required for their project. However, obtaining such permits does not infer that the ACC has given the approval to proceed.

Applicants/Residents

- Must abide by the Design Guidelines herein.
- Must fully complete an ACC Design Review Application Form with all requested drawings, materials, samples, etc. The forms are available at the Lodge’s Front Desk and the Administration Office or on the TPCA web site: www.timberpines.com.
- Must insure that a change request by an Applicant from a self-governing Village is accompanied by a signed approval from that Village prior to submitting request to the ACC as individual village requirements may differ from TPCA.
- Must post approved request form on the exterior of the home until completion of project.
- Upon completion of project, must call Administration Office to schedule the ACC Final Inspection.

Architectural Control Committee (ACC)

- The ACC shall “Approve” or “Disapprove” requests in writing within the appropriate project timeline after receipt. Reason(s) for a Disapproved request will be provided to the Applicant.
- The guidelines herein indicate the minimum criteria for requests, without limiting the ACC’s ability to require additional conditions/information prior to the ACC Design Review.

B. ACC Design Resign Review Process

The Architectural Control Committee evaluates all exterior change requests on the merits of the individual request. Decisions made by the ACC are based on the following criteria:

Relationship with Natural Environment: To prevent the unnecessary removal, destruction, or blighting of the natural landscape or of the man-made environment.

Conformance with Master Documents: To confirm that the project is in no way contradictory with the parameters or spirit of the Master Documents.

XI. ARCHITECTURAL CONTROL

Design Compatibility: Compatibility is defined as similarity in architectural style, quality of workmanship, use of similar materials, color(s), and construction details.

Location and Impact on Neighborhood: The proposed change should relate favorably to the landscape, the existing structure, and surrounding neighborhood.

It is the applicant's responsibility to obtain all necessary permits. All proposed projects must meet approval by the Architectural Control Committee (ACC) above and beyond any permits required by the county. The ACC Design Review Process is formatted into three different project types based on the level of change requested. Each of the three ACC Design Review Application Forms can be found in the exhibits listed in parenthesis.

TYPE 1 PROJECT: COSMETIC MODIFICATION - (EXHIBIT A)

The least significant change which alters the aesthetic appearance of a property but does not involve any demolition or construction processes.

TYPE 2 PROJECT: CONSTRUCTION RENOVATION - (EXHIBIT B)

More significant change to the existing dwelling and typically requires some demolition and construction by a general contractor and construction documents executed by a design professional.

TYPE 3 PROJECT: NEW CONSTRUCTION - (EXHIBIT C)

The most significant change where a significant amount of demolition (if not the entirety of the existing dwelling) and construction are involved. This project type is administered and managed by a general contractor and construction documents which are executed by a design professional.

The following items are required for the ACC to review a proposed project:

1. Completed ACC Design Review Application Form
2. Payment of the Review Fee & Compliance Deposit (if applicable)
3. Samples, Descriptive Materials and or blue lines drawings

ACC Review Schedule

<u>Project Type</u>	<u>Project Fee</u>	<u>Deposit</u>	<u>Timeframe</u>
Type 1: Cosmetic Modification	\$0	(\$0* deposit)	14-Day Review
Type 2: Construction Renovation	\$50	(\$250* deposit)	30-Day Review
Type 3: New Construction	\$250	(\$1000* deposit)	60-Day Review

*The deposit is contingent on the payment for any damage to the Common Areas and will be returned to the applicant after an on-site review of the completed project has been performed and compliance with the pre- approved modifications can be verified in person.

The following are the three project types and descriptions of what's required for ACC Review submission.

The square footage requirements below apply to conditioned floor areas and are exclusive of portions of unconditioned basements, vaulted ceiling and unfinished attic spaces, open covered and screened in porches, decks and patios, porte-cocheres, and garages.

Minimum Ground Level Conditioned Area

1 Story -	2,000 sf (or no less than the existing footprint)
1 ½ Story -	1,800 sf
2 Story -	1,600 sf

The sizes are predicated on the ability of a dwelling's fit within the existing building setbacks and easements. Lot consolidation in order to increase the size of the house is prohibited. In the case there is restrictive topography, lot dimensions or unusual site conditions, a variance can be considered and granted by the ACC.

Maximum Height Limitation

The maximum number of stories permitted above grade level at the front of the residence is two (2).

The maximum height limitation from the Main Level finished floor elevation to the top of the cornice (as it relates to the roof over the main body of the residence) is twenty six feet (26').

Roof Pitch Requirements

In the case of new construction projects, primary roof areas shall have a minimum slope of five (5) feet vertical to twelve (12) feet horizontal or 5:12 and a maximum slope of eight (8) feet vertical to twelve (12) feet horizontal or 8:12. For Construction Renovation projects, the new roof slopes are required to be the same as the existing roof.

Florida Friendly Landscaping

Florida homeowners have many reasons to consider converting their existing residential landscape to a Florida Friendly Landscape. Most importantly, a Florida Friendly yard is an environmentally sound yard that conserves and protects Florida's waterways, soil, wildlife and energy. Using the proper plants in the right place can filter harmful storm water runoff, improve the landscape's soil, provide wildlife habitat and create shade for energy efficiency in the home. Landscaping also adds beauty and creates pleasant outdoor living spaces to increase the value of residential property. Whether you are new or an experienced gardener, you may want to enjoy the experience of establishing a Florida Friendly environment in your landscape. G. Appeal process of ACC Design Review

When the Architectural Control Committee disapproves an Exterior Change Request, the owner will be informed in writing as to the reason for the disapproval. If the owner wishes to appeal the decision, an appeal letter should be completed and delivered to the Administration Office.

Residents may appeal an ACC disapproval to the Architectural Control Dispute Resolution Group (ACDRG). The written appeal must be received by the ACDRG within thirty (30) days following the disapproval decision by the ACC.

The appeal will be heard by an Architectural Control Dispute Resolution Group (ACDRG). The ACDRG is made up of the TPCA President (or Designate), the Board Liaison to the Architectural Control Committee (or alternate), the General Manager, the Chair of the Architectural Control Committee (or designate), and a recording secretary.

Architectural Control Dispute Resolution Group (ACDRG)

The ACDRG will submit its decision of the appeal to the Application in writing, within five (5) working days of the hearing.

The decision of the ACDRG is final, unless the resident wishes to appeal it to the entire Board of Directors. This appeal option will be conveyed to the resident as part of the written notification of the ACDRG's decision. The resident must file a notice for a full Board of Directors review within 30 days of the notification of the ACDRG's decision. The appeal will be heard at one of the next two (2) Board Workshop meetings. The determination, by a 2/3 vote, of the Board of Directors shall be final.

Must not begin work until the appeal process is complete.

After approval of an ACC Design Review is received, it is the responsibility of the applicant to obtain any necessary County or SWFWMD permits as may be required.

XI. ARCHITECTURAL CONTROL

A copy of the approved ACC Design Review Form will be returned to the Owner and must be posted on the exterior of the home so as to be visible from the frontage street from the time of receipt to the completion of the project.

Deviations from the approved ACC Design Review modifications are not permitted.

Approved work must be completed within the time frame specified on the ACC Design Review Form.
